

# Apex Corporation

alloys & fusion products

ISO Certified Company

Manufacturer & Exporter of **Inserts for CPVC,**  
**PPR, UPVC & Precision Brass Components**

## INSERTS FOR CPVC, PP-R ,UPVC PIPE FITTING

We are manufacturing wide range of brass PPR/CPVC Fittings in different size, material, thread and type and exporting it to various countries. Our comprehensive range of Brass PPR/CPVC Fittings include male ppr fitting, female ppr fitting, male cpvc fitting, female cpvc fitting and more. These Brass PPR and CPVC fitting manufactured from high grade brass alloys and sophisticated techniques. All our brass PPR and CPVC fitting are adhering to DIN, JIS and other international norms and standards to fulfill the varied need of customer. We are capable to offer wide range of knurling including Diamond Knurling, Straight Knurling, Unidirectional Knurling or as per customer specification. Inner diameter (I/D) after threads with very close tolerance to prevent unnecessary flush to inter into the inserts. Our finest quality brass PPR/CPVC fitting are suitable for most of the applicable PPR Pipes, gas cylinders, electrical equipments and pipe line assembling.

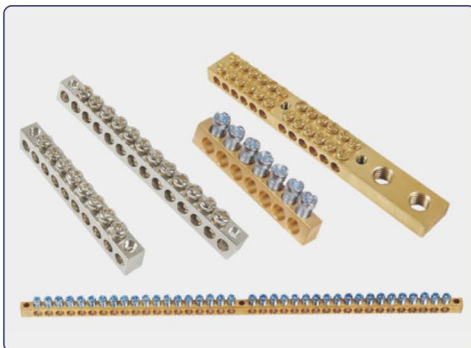

## Cable Glands

We manufacture and export a comprehensive range of Industrial Cable Glands, Cable Fittings and Cable Gland Accessories for the smooth interconnection of cables and equipment. The range of Cable Glands include safety, deluge, flameproof and explosion proof Cable Glands cover the full spectrum of cable from general to industrial types. The manufactured range of standard and high-quality Cable Glands are designed to provide optimal systems integrity when used alongside cables and form an integral part of cable solutions.

## ELECTRICAL & ELECTRONIC PARTS

We are manufacturing all Kinds of Brass Electrical & Electronic Components, Brass Electrical & Electronic Parts and Brass Electrical & Electronic Fittings like Electrical Plug Pins, Sockets Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

## BRASS FASTENERS

We provide Standard and High-Quality Brass Fastener with variety of types. Generally, Fasteners are hardware components that mechanically joins two or more elements together. Brass Fasteners are easily removable without any damages the joining components. They are made from brass, mild steel and other material composition. Brass Fasteners are defined various types such as Screw, Washer, Anchor, Nuts, Rivets, Inserts, Bolts and many more. Brass Fasteners are widely used in various industrial sectors including Electrical, Mechanical, Construction, Automotive, Automobile, Oil and Gas, Petrochemical and more.

## BRASS FITTINGS

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, Brass Compression Fittings, Brass Pipe Fittings, Brass Hose Fittings, Brass Flare Fittings, Brass Tube Fittings, Brass Valves & Cocks Fittings, Brass Plumbing Fittings, Brass Auto L. P. G. Gas Fittings, Brass Double Ferrule Fittings, Brass Hydraulic Fittings, Brass Pneumatic Fittings, Brass Inverted Flare Fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility.

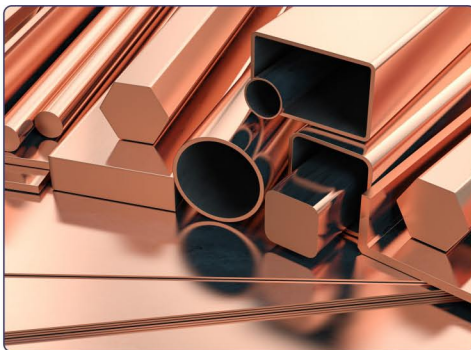

## SHEET METAL COMPONENTS

Sheet Metal / Stamping Parts are used in varieties of applications like riveting, Fitting, Supports, Locking, Fastening & for various uses in electromechanical & Automobile Industries. It comprises a lot of types like Washers, Lugs, Tags, Gaskets, Links, Banana Plugs, Terminals, Tapping Clips, Hinges etc. Apart from Plain Washers, all other varieties are exclusively developed as per custom designs & demands. Material: Brass, Copper & Steel are the universally used in most of the applications. Other Metals such as Phosphorus Bronze & SS can be made available as per custom request. Material grade followed for Brass Metals is IS 410: 63-37 Half Hard: CuZn37. Any High Grade material can be followed for any metals as per custom specification. Flat Washer, Star Washer, Teeth Washer, Spring Washer & Split Washers can be made available as per specific requirement.

## Extrusion

We are pioneer in manufacturing brass hollow sections which are mainly used in products which require hole in the final product and as the raw material itself being hollow as required, the manufacturing time and tooling cost both are reduced..

These hollow sections are manufactured in various standards like IS, BS, DIN, etc. which are mainly used in Locks and Safety Equipments, Automat parts, Hardware Industries, Engineering Industries, spectacle and watch and many more.

In addition to basic shapes like rectangle, round, square, & hex; we also manufacture a host of other specialized range of any Section as per customized requirement.

## S.S. & ALUMINIUM PARTS

## COPPER & ZINC PARTS

## RUBBER PARTS

## PVC PARTS

Note : We are also supplying above products to our clients on special demand. we can supply all these products exactly as per your drawings and specifications. Please contact us if u have any requirement for these customized products also.
